

Boris Lim

DevOps Engineer

850-625-9787 | borislim2@gmail.com | Greater Chicago Area | [LinkedIn.com/in/boris-lim](https://www.linkedin.com/in/boris-lim)

PROFESSIONAL OVERVIEW

DevOps Engineer with 7 years of experience building and automating cloud infrastructure. Skilled in AWS, Kubernetes, Terraform, and CI/CD with a focus on performance, reliability, and cross-team collaboration. Proven ability to design scalable systems, streamline deployments, and enhance observability in fast-paced, production environments.

WORK EXPERIENCE

Infrastructure Engineer | Axios | Arlington, VA Aug 2022 – Mar 2025

- Managed Terraform infrastructure across environments, reducing provisioning time.
- Built scalable CI/CD pipelines with GitHub Actions and CircleCI for automated testing and deployments.
- Built observability stack (Prometheus, Grafana, Loki) on Kubernetes, reducing incident detection time by 40%.
- Managed EKS clusters with autoscaling, IRSA integration, and secure multi-tenant workloads.
- Implemented cross-region infrastructure replication from us-east-1 to us-west-2 for full disaster recovery.

DevOps Engineer | Rokr | New York, NY Nov 2019 – Jul 2022

- Redesigned CI/CD pipelines using CircleCI and Terraform, reducing deployment time from 30 to 5 minutes.
- Implemented GitOps using ArgoCD for automated, consistent Kubernetes deployments, improving reliability.
- Centralized logging using the EFK stack, streamlining incident response and improving log analysis by 50%.
- Unified observability via Datadog by integrating logs, metrics, and traces, improving visibility and response time.

DevOps Engineer | ActiveCampaign | Chicago, IL Mar 2018 - Oct 2019

- Deployed and maintained AWS infrastructure including VPCs, EC2, S3, Route 53, and Auto Scaling.
- Optimized Docker images and created multi-stage builds to speed up development and application delivery.
- Designed and implemented secure storage using IAM and S3 lifecycle rules to protect data and reduce costs.
- Containerized legacy applications using Docker, improving deployment reliability and environment consistency.

CERTIFICATIONS

AWS Certified Solutions Architect – Associate

Certified Kubernetes Administrator (CKA)

SKILLS

- Cloud: AWS (EC2, S3, VPC, IAM, RDS, Lambda, Route 53), Cloudflare
- IaC: Terraform, Pulumi, CloudFormation, Packer
- CI/CD: GitHub Actions, Jenkins, CircleCI, ArgoCD
- Containers: Docker, Kubernetes (EKS), Helm, Tilt, Ingress NGINX, Network Policies, RBAC
- Scripting: Bash, Python, Go (Golang)
- Monitoring: Prometheus, Grafana, Datadog, CloudWatch, ELK Stack, Sentry, Honeycomb, Pingdom
- Databases: PostgreSQL, MySQL, MongoDB, AWS RDS, Aurora, DynamoDB
- Security & Testing: Orca Security, TFSec, Checkov, k6, IAM Policies
